Fast and Easy-to-use

Professional Document Output

Imaging and Printing Optimization

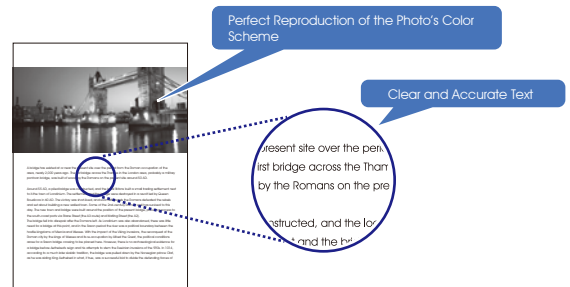

Avision A3-size MFP adopts a combination of friendly design and advanced imaging technology. Simply through the quick-to-use button on the panel you can scan, print, copy and fax (for fax model only). The device is also the one for economical and easy of use to meet all your requirements for A3 large-size document processing, even including ID Copy. It provides complete functional support for optimal business performance with its smooth document processing.

COPY

AM7000 Multi-function products feature a fast copy speed of up to 28 cpm with 600 dpi resolution and produces laser printer quality outputs.

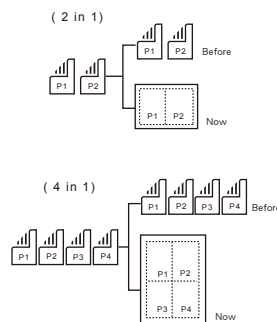

3 Copy Modes for Selection

“Mixed Mode” Automatically identifies the text and graphics in the document, and mixes with them to reproduce the original document quality;
 “Photo Mode” Enhances the quality and sharpness for copy of pictures or photographs;
 “Text Mode” Emphasizes the text part in the original.

Paper Saver

Paper saver: Allows you to copy 2 or 4 pages of A4 documents into one single sheet of A3 paper to save paper. AM7000 even has the function of ID Copy which enables you to copy both sides of your ID card on one side of paper.

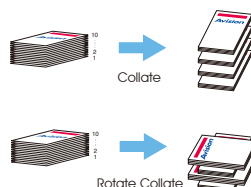

Concentration Control

You can manually control the 6-level concentration to select the preferred color scheme to meet your copy requirements.

Collate

It provides two modes of Collate, including Collate and Rotate Collate, which saves your time for document sorting to optimize work efficiency.

Backup copy

When AM7000 series is connected to PC , it can convert the material to be copied into PCL printing file via driver and save it in the hard drive. You can directly select and copy the files saved in the device without connecting to a computer.

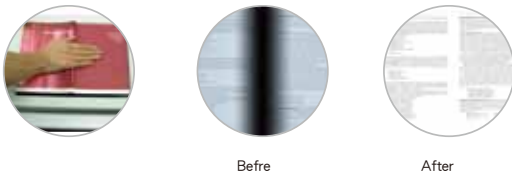

Fast Copy Speed

With consecutive copying volume of up to 999 pages, the copy speed of 28 cpm (first copy out time of 7 seconds) helps you easily handle daily copy tasks, and even meet emergency copying requirements with its 7-second first copy output time.

Book Copy

Avoids a possible shadow on the copy resulting from the uneven area in the center when the book is pressed against the scanner.

Auto Size

Select a suitable magnification ratio based on your desired paper size for enlargement/reduction, without using any software to adjust the size of images.

Auto Rotate

Automatically rotates the original image to match with your output paper.

PRINT

High Speed

Print speed of up to 28 ppm.

Large-capacity paper feeder

The large-capacity paper feeder accommodates up to 250 pages of standard A3 paper and the convenient 100-page manual input tray, which can accommodate paper sizes from A5 to A3, is provided for significant reduction in manual paper feeding time. An optional secondary feeder is also available (500-page capacity).

Duplex Print (Optional)

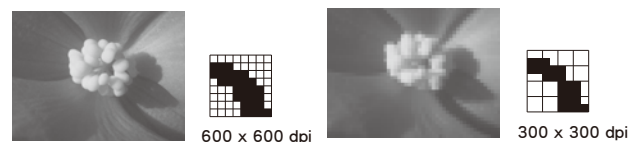

This enables automatic duplex print and allows you to print large-volume, multi-page material using half the paper, dramatically reducing the printing costs. Furthermore, the non-stack feeding also significantly increases the duplex print efficiency.

(Half the paper is Saved)

High Quality

High dpi laser printing: By using the ultra-fine toner, it can print 600 x 600 dpi sharp image quality with 256 intensity gradation, which helps the user print more professional documents and pictures.
