

AV600 Gigabit PowerLine

3D/HD Streaming

Energy Saving

Plug & Play

HP-6002AC / HP-6002ACK

AV600 Gigabit PowerLine Adapter with Integrated Power Socket

Unsatisfied that your wireless can't reach certain areas in your house? Powerline is an ideal and simple solution to your problem. Edimax's HP-6002AC AV600 Gigabit Powerline Adapter extends your internet access with standard power outlets to create a 600 Mbps high-speed network to any room without internet dead spots and no more messy wires running through your house.

Unlike Wi-Fi devices with limited bandwidth, the HP-6002AC is perfect for high-bandwidth applications like HD video, 3D movies and audio streaming to every room, and it's compatible with any networking device with an Ethernet port. HP-6002AC Powerline adapters can also reach locations which Wi-Fi can't, so they are ideal for computers, home theater, smart TVs and gaming devices - providing you with an expandable and easy to set up network at home.

Fastest Powerline Speed

Up to 600Mbps Powerline Speed & 1000Mbps Gigabit LAN Speed

The Edimax HP-6002AC comes with the latest Powerline speed up to 600Mbps and Gigabit speed up to 1000Mbps, providing users with the fastest Powerline adapters and taking home networks to super-speed levels.

Smooth Connection

Ideal for Multiple 3D/HD Video Streaming and Multiplayer Gaming

600Mbps Powerline speed and RJ45 Gigabit Ethernet is ideal for bandwidth intensive applications such as multiple 3D/HD video streaming and multiplayer gaming, ensuring smooth transition and high performance.

Plug & Play, No More Unsightly Cabling Easily Create or Extend Networks via Existing Electrical Wires

The Edimax HP-6002AC transforms the existing electrical wires in your home or office into a high-speed network. Complicated, disruptive and unsightly cabling is no longer necessary - if your home or office doesn't have an existing Ethernet cable infrastructure, the HP-6002AC enables you to create a network environment easily and cost-effectively.

No Electrical Outlet Goes to Waste Integrated Power Socket with Noise Filter

With the Edimax HP-6002AC, no electrical outlet goes to waste. It is built with an integrated power socket, which you can use with any electrical device. So even when the HP-6002AC is plugged into a socket, you can still plug another electrical device into the HP-6002AC and have your usual socket capacity. The in-built noise filter also ensures that you do not experience a sudden drop of network speed when a high power consuming electrical device is being used.

KEY FEATURES

- High-speed data transfer rate of up to 600Mbps, ideal for bandwidth-intensive HD video or 3D video streaming and online gaming.
- Features an energy saving mode to reduce power consumption.
- Up to 300-meter range over a home's electrical circuit for better performance through walls or across floors.
- Built-in QoS assures the quality of bandwidth sensitive applications such as voice, video and online games.
- Supports IGMP managed multicast IP transmission and optimizing IPTV streaming.
- Compatible with all AV500 & AV200 Powerline adapters (HomePlug AV).
- Integrated power socket with noise filter.

(HP-6002ACK Adapter Kits with 2 pcs of HP-6002AC)

600Mbps is the maximum theoretical communication speed at the physical layer via electric power lines (i.e. speed between Powerline devices) based on the IEEE 1901 standard. Maximum performance, actual data rates, and coverage will vary depending on network conditions and environmental factors. Product specifications and design are subject to change without notice.
