Features

The Video Surveillance Software WV-ASM300 Series* is designed for integrated management of multiple Panasonic network disk recorders, digital disk recorders (hereinafter referred to as recorders), network interface units (hereinafter encoders), network cameras (hereinafter cameras), and network microphones (hereinafter microphone) connected to a network such as a LAN or the Internet, and runs on the Microsoft® Windows® operating system. Refer to the "Compatible devices" section of the operating instructions of the WV-ASM300 for further information about the devices compatible with this software.

By using this software on a personal computer (hereinafter PC) via a network, it is possible to display live images of the cameras on monitors, to play audio from microphones on a PC, to play images and audio stored on the recorder, and to download image files to the hard disk drive of the PC.

* The WV-ASM300 Series also includes Extension Software (option) and Upgrade Software (option).

About this installation guide

This installation guide contains descriptions of how to install this software.

The operating instructions (Help files) on the supplied DVD-ROM consist of chapters of setup instructions and operating instructions.

The setup instructions contain descriptions of how to perform the required settings before starting operation, for administrators (ADMIN users).

The network settings will be different depending on the settings of the LAN or the Internet service provider.

Refer to the network administrator for further information about the network settings.

Refer to the operating instructions for how to operate each function.

The descriptions in the following pages are based on the assumption that Microsoft® Windows® 10 Pro runs on a PC.

Operation windows may not be the same as those appearing on the pages when a different OS is used or different settings are applied.

When using other OS, refer to the operating instructions of the respective OS.

Important:

- This software must be installed by the administrator. Otherwise, any problems will not be covered by the warranty.
 - Operation of this software on remote desktop is not guaranteed.
 - While running this software, do not log out of the PC nor shut down the PC. Otherwise, operation of this software may become unstable.
 - Do not use other applications, especially heavy load types, while this software is running. Otherwise, the CPU overload and the shortage of resources will cause malfunction and insufficient performance.
 - When no sound card is installed, the buzzer will not sound at an alarm/error occurrence. The audio transmission/reception function is also unavailable.
 - Use of 2-byte characters for a user name causes installation failure. Create a user name with 1-byte alphanumeric characters and perform installation.
 - Windows XP mode for Microsoft® Windows® 7 is not supported.
-

Installation

Important:

- Before installing this software, make sure that no other Panasonic disk recorder management software such as WV-AS65, WV-ASM10, WV-ASM100 (WV-ASM100L) or WV-ASM200 Series is installed on the PC. When the other Panasonic disk recorder management software and this software are on the same PC, operations of this software will not be covered by the warranty.
 - When reinstallation is necessary, uninstall the existing software before starting the reinstallation. An overwrite installation may cause unstable operations.
-

1. Insert the provided DVD-ROM into the DVD-ROM drive on the PC.
 2. Double-click "setup.exe" in the folder "1 Video Surveillance Software". If Microsoft® .NET Framework 4.6.x has not been installed on the PC, it will be installed automatically. Wait until the installation is complete. Then, the installer of Video Surveillance Software will be launched.
 - The installer of "1 Video Surveillance Software" will be launched.
Install the software by following the instructions displayed on the monitor.
When installing in a standard setting, the executable files, etc. will be copied on a newly created folder "C:\Program Files\Panasonic\ASM300" for 32-bit OS, and "C:\ProgramFiles (x86)\Panasonic\ASM300" for 64-bit OS.
-

Note:

- When Microsoft® .NET Framework 4.6.x is not installed on the PC in use, the installer of Microsoft® .NET Framework 4.6.2 will automatically be launched. Install the software by following the instructions displayed on the monitor. When the installation is completed, the PC will automatically be rebooted. After the PC is rebooted, the installer of "Video Surveillance Software" will be launched.
-

3. Configure the exceptional settings of Windows Firewall.
Refer to the setup instructions for further information.
4. Reboot the PC.
When completing steps 1 - 3, reboot the PC to complete the installation.

Launching the software

Refer to the setup instructions or the operating instructions of the WV-ASM300 for how to launch this software.

Important:

- When using this software, be sure to register the "Registration Key". Refer to the Activation Key Card for further information about how to obtain the "Registration Key".
 - When the "Registration Key" for the demo edition is registered, this software will be launched in the demonstration mode. The demonstration mode is available only during the limited period.
-

Uninstallation

Important:

- When this software is uninstalled, the setup data (data base) will not be deleted.
- The data downloaded from the recorder or the camera will not be deleted even when this software is uninstalled.
- Microsoft® .NET Framework 4.6.x will not be deleted even when this software is uninstalled. If necessary, uninstall them after uninstalling this software first.
- When a message window is displayed in the process of the uninstallation to ask you to quit the applications, click the [Cancel] button on the displayed window to cancel the uninstallation. After stopping the appropriate services, retry the uninstallation.

Refer to the operating instructions of the OS in use for how to stop the services.

1. Select "Settings" - "System" - "Apps & features" from the Start menu.
2. Select "WV-ASM300 Series" from the presently installed programs and click the [Uninstall] button.
→ The uninstall program will be launched and the wizard will be displayed.
3. Uninstall the software by following the instructions displayed on the monitor.
